

Dr. Seifan is a Board-Certified Neurologist who is also United Council of Neurologic Subspecialty Certified in Behavioral Neurology & Neuropsychiatry. Dr. Seifan provides expert opinions using a novel approach he terms "Re-Unified Brain Care", also dubbed "Neuro Mental Health". This unique approach combines the best of what we know from Neurology with the best of what we know from Psychiatry. As a result of his comprehensive approach, clients working with Dr. Seifan receive evaluations that contain a broader amount of information that might lead to a deeper understanding of the case. Dr. Seifan specializes in cases in which the diagnosis has been difficult to ascertain, but he will work with any person in need, including children, adults or elderly, from either side of the case (defending or prosecuting), without discrimination.
